

Technical data sheet:

Mohawk Via Laid: *expressive colour and texture*

Mohawk Via Laid combines a soft texture and with a crisp laid pattern applied to the paper during the papermaking process. The versatile laid surface helps deliver your message with a subtle, tactile twist.

Via Laid is available exclusively through Europapier in white and natural shades in writing, text and cover weight and with matching envelopes.

- Specified by the US print and creative communities for over 25 years
- Delivering Mohawk quality and performance at a budget-friendly price point
- Manufactured acid free to meet ANSI standards for archival permanence
- Excellent on-press performance – uniform, stable and consistent
- Manufactured with wind energy, produced carbon neutral and FSC certified
