

Europapier Polska Sp. z o.o.
Wadowicka 6, 30-415 Kraków

22 April 2026

Dear customer,

Mondi SCP a.s. (Tatranská cesta 3, 03417, Ružomberok, Slovakia, hereinafter "Mondi") supplies Europapier Polska, with the following paper grade:

- Offset Paper – IQ Print

Please find a statement regarding your inquiry below.

Per- and polyfluorinated alkyl substances (PFAS)

PFAS are a substance group that comprises thousands of different compounds and are used in numerous industrial processes and consumer products due to their special technical properties and two regulatory proposals are currently discussed on European level:

- 1) **PPWR:** The European Commission has published a proposal for a Regulation on packaging and packaging waste (PPWR) which will repeal the European Council Directive 94/62/EC "on packaging and packaging waste". [1] The Committee on the Environment, Public Health and Food Safety (ENVI) has voted to include an amendment to the PPWR proposal that includes a ban of food contact packaging containing **intentionally added PFAS**. [2] The ban of intentionally added PFAS of the PPWR proposal builds on existing national legislation e.g. the Danish Order of 2020 that bans the use of PFAS in food contact materials (FCM) made of paper and board (P&B). [3]
- 2) **REACH:** The **ongoing evaluation** of a PFAS-restriction proposal under REACH [4] is not expected to be finished in the near future due to the extensive feedback (over 5600 comments) received by ECHA from over 4400 organizations, companies, and individuals.

There is no intentional PFAS input via the used raw materials and process aids in the production of the marketed Mondi paper grade listed above.

Currently, there is no reliable discussion on PFAS based on an officially recognized and robust analytical method possible, which is fundamental to ensure a sustainable assessment. As an international packaging group, Mondi is fully aware of its responsibility in the supply chain. Mondi is actively involved in all actions of the European Union and the European and national associations of paper manufacturing and converting industry regarding the PFAS topic to ensure consumer health and market compliant food contact materials & articles (FCM&FCA) solutions. Mondi contributes to a better world by delivering innovative packaging and paper solutions.
