Stora Enso, BU Ostroleka Mill**Customer Information on chemical compounds**

For the purpose of achieving high chemical and microbiological purity Ostroleka Mill uses only food contact approved chemical additives. Virgin pulps are elementary chlorine free (ECF). Recycled fiber pulps are manufactured from selected Paper for Recycling (PfR) grades based on EN 643. Detailed information regarding food contact compliance can be found in the product specific Declaration of Compliance (DoC).

List of chemical substances

We confirm that based on information from our chemical additive suppliers and upon our current knowledge substances listed below are not used as raw material or intentionally added* in the production of paper, paperboard or pulp at Stora Enso, BU Ostroleka Mill. However, whenever material contains recycled fibers, traces are possible.
