

ELEMENTAL CHLORINE FREE – ECF

LECTA GROUP certifies that all its coated and uncoated products have been manufactured under the following conditions:

- a) 100% of the pulp produced as well as purchased by LECTA GROUP is Elemental Chlorine Free - ECF. Since 2001 LECTA GROUP has eliminated chlorine gas in its pulp bleaching sequences, thus eliminating the dioxins in effluents and substantially improving the quality of discharged water.

- b) 100% recyclable product.
