

TexPrint®Sports

THERMAL TACK Digital dye-sublimation print paper

TexPrint®Sports and Sports+ are designed to adhere to sportswear and activewear fabrics, along with other soft surfaces prone to shrinkage and movement during image transfer. TexPrint®Sports paper is our light tack paper for applications needing less adhesion. TexPrint®Sports+ is offered with heavy thermal tack for applications needing more adhesion.

FEATURES:

Two adhesion levels, widths to 3.2 meters and roll lengths to mini-jumbo.

Flatness

High color yield

Faster across the heat-press

Waste reduction

CUSTOMER BENEFITS:

Get exactly the right adhesion level and put-up for your production environment with less waste, fewer roll changes and more up-time.

TexPrint®TA lays flat. Prints flat. Resists cockling even under heavy ink loads. No head strikes, no worries.

More color from less ink. More color on your fabric, less ink left on the spent print-page.

TexPrint®TA allows heat to migrate through the print sheet quicker, reducing calendar dwell times and promoting higher calendar speeds, while depositing the richest and deepest dye-gas penetration.

Available in both individually boxed or bulk-packed. Volume users can save time and labor by ordering bulk packaging.

Properties

Grade	GSM	Applications
TexPrint®Sports	92 gsm basis weight	Light thermal tack for use on fleece and fabrics needing less adhesion.
TexPrint®Sports+	92 gsm basis weight	Heavy adhesion for use on fabrics with finishes requiring more aggressive adhesion
